	PT-09, WC-15	Coming Soon

Introduction

The Home2 Suites Vibrant and Dynamic prototypical décor packages have been thoughtfully designed by Hilton to align with the current North American prototype and provide a complete décor solution. The vendors and their products were chosen through an extensive sourcing process and represent a high-quality, economical, and streamlined solution for a Home2 Suites Brand property. If used holistically, the package with the specified vendors is pre-approved and will help expedite project approvals and procurement. Refer to Project HUB for submittal requirements.

Within this document are the Finish specifications needed to implement the Home2 Suites Dynamic prototypical décor scheme. Along with the Design Guide, the Renovation Guide, the Home2 Suites Brand Standards, and the Architectural Prototype Drawings, these specifications and the corresponding guest suites and public area specifications will assist the Owner/Designer in completing either a new build or renovation Home2 Suites Brand property.

Supplemental specifications unique to soft goods renovations will be provided in a forthcoming release.

Partial or complete customization of non-required specifications is permitted. Any custom designs, specifications, finishes, or vendors MUST be submitted for review and approval.

If there are any questions about how to use this document, please contact Architecture, Design & Construction at design.review@hilton.com.

Submit all custom specifications to Hilton Design Review (projecthub.hilton.com) for final approval prior to purchasing or implementation of any material.

Negotiated pricing is available through Hilton Supply Management. Connect with the HSM team of procurement experts at HSMx@Hilton.com to learn more about implementing the benefits of pre-approved packages.

Supplemental Information

The below documents can be found on the designinformation.hilton.com (username and password are hilton20xx, where xx is current year).

- **Design Guide:** This document gives a designer all the reasons why the Brand is what it is. It helps establish uniformity of practice, consistently express the Brand identity and serves as a guide for Interior Design and FF&E selection. It discusses the specific elements required and describes how the design is integrated to optimize guest experience and operational efficiency.
- **Renovation Guide:** This document provides tools for implementing the current Home2 Suites design in a renovation.
- **Home2 Suites Brand Standards:** This document lists the minimum standards, procedures, rules, regulations, policies, and techniques required by the Home2 Suites Brand and Hilton.

Vendors

- **Approved Vendors:** Vendors specified herein as manufacturers are pre-approved and have been selected through an extensive sourcing, product development, and vetting effort. Approved Vendors have the necessary experience with the specified products, including pre-approved drawings and samples. Approved Vendors have committed to ensuring all products meet or exceed Home2 Suites Brand Standards and upholding Hilton's Responsible Sourcing Policy.
- For custom designs on non-required items, Owners/Designers are encouraged to use the Approved Vendors based on their experience with the Home2 Suites Brand Standards and prototype. An Owner/Designer may use a vendor of their choice for non-required items outside of the Approved Vendors. However, those vendors and each of their products must be approved through the Hilton Design Review process on an individual project basis. It is the Owner's/Designer's responsibility to ensure that all such products comply with Home2 Suites Brand Standards.

Notes

- It is the Owner's/Designer's responsibility to maintain the design intent and adapt all required elements to their property's conditions and code requirements prior to fabrication and installation.

Home 2 Suites - Dynamic Finish Specifications

Index

Project Name: Home2 Finish Specifications

Scheme: (B) Dynamic

Area: Public & Guest Suites

Project Name: Home2 Finish Specs
Scheme: B-Dynamic
Issue Date: March-23
Revisions: May-23 Δ1

Item Number: **(B) ACB-01**
Item Name: Acoustic Ceiling Baffles
Area Name: Reception Desk Ceiling

Manufacturer: **MDC Interior Solutions**
Address: 400 High Grove Blvd.
Glendale Heights, IL 60139
Phone: (800)486-9800
Contact: MDC National Accounts
E-mail: nationalaccounts@mdcwall.com
Web: www.mdcwall.com

Product: Zintra Standard Baffle System
Color/Finish: HLTN3212 - Pebble
Size/Dimensions: 4"W x 108" L x 1/2" thick baffle
Content: 100% Polyester
Fire Rating: Class A
NRC Rating: 0.45 - 0.95 (Varies on installation)

Notes: Suspension system: Square tube 1"x1", finish: anodized silver with adjustable cables
Weight: 0.5 lb/square foot
Refer to v3.0 Prototype Drawing Set for details

Unless Using A Specified Manufacturer, The Following Required Item(s) for Approval Prior to Fabrication:
Finish Sample

Instructions:

- All quantities to be verified by installer prior to purchasing.
- It is the responsibility of the owner to interpret these specifications for each property.
- All interpretations of the specification MUST be submitted to Hilton Design Review (projecthub.hilton.com) for final approval prior to purchasing or implementation of any material.
- Must be of contract quality and suitable for commercial use.
- All materials and methods of construction must comply with all local fire and life safety codes for use in hotels and other public spaces, and Brand Standards.
- Contractor to verify all sizes, quantities, and trim pieces required.
- Contractor to install with a 45 degree miter on all corners.
- Installer to provide all materials and equipment for complete installation.

Project Name: Home2 Finish Specs
 Scheme: B-Dynamic
 Issue Date: March-23

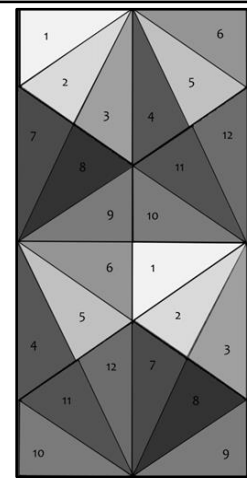

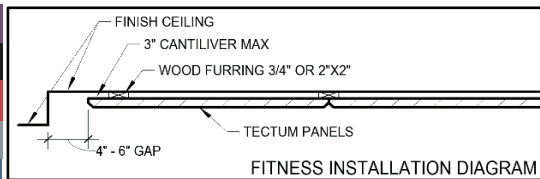

Item Number: **(B) ACT-01**
 Item Name: Acoustic Ceiling Tile
 Area Name: Fitness Center

Revisions:

Manufacturer: **Armstrong Ceilings**
 Address: 2500 Columbina Avenue
 Lancaster, PA 17603
 Phone: (503) 341-4373
 Contact: Dianne Knight
 E-mail: dsknight@armstrong.com
 Web: www.armstrongceilings.com

Product: TECTUM Create-Attach Ceiling Panels
 Color/Finish: Custom image/pattern - Colors to match color references below.

- | | | | | |
|------------------|----------------|--|------------|--|
| Color Placement: | 1. 11-4300 TPG | | 7. 7652 U | |
| | 2. 5315 U | | 8. 419 C | |
| | 3. 5455 U | | 9. 3546 U | |

Description: Carpet Tile - Plank
 Style Number: H2D01 (50P41-Q5531)
 Pattern: 12PMBA40
 Color: A=08C182, B=6014C, C=6012
 Size: 12" x 36"
 Type: Tufted; Textured Pattern Loop
 Repeat: NA
 Content: Colorstrand SD Nylon
 Weight: 17 oz
 Primary Backing: EcoFlex Air
 Secondary Backing: NA
 Pile Height: 0.187"
 Gauge: 1/12
 Stitches per Inch: 11.5
 Dye Method: Solution Dyed/ Yarn Dyed
 Installation Method: Brick Ashlar
 Flame Requirement: ASTM E-648 Class 1
 Carpet Base: CPT-01.1
 Notes: Glue: Per manuf. recommendation.
 To be installed with (B) CPT-02 - Refer to Manufacturers seaming diagram

Unless Using A Specified Manufacturer, The Following Required Item(s) for Approval Prior to Fabrication:

Strike-Off, Seaming Diagram

Manufacturer to confirm the Product meets Hilton Design and Construction Standards as noted in Section 2514.03
